STREETS ARE FLOODED

Town in Missouri in a Decidedly Serious Condition.

CARUTHERSVILLE, MO

Citizens Are Collecting Movable Articles of Value and Going to the High Lands, White Levees Are in Danger.

Memphis, March 11.—The river here to-day was rising, the gauge marking 35.2 feet.

This is a rise of five-tenths in twenty-four hours, and local weather bureau officials say a large volume of water is yet to come. At North Memphis encroachment of flood is being felt. Negroes are fleeing from lowlands with movables. Many large lumber establishments will be forced to suspend operations if further rise is noted. Railroads so far are suffering but little.

At Caruthersville, Mo., north of here, the gravest apprehension is felt for the levees. The water is now from two to three feet deep in streets of the town, and citizens are collecting valuables and moving to higher ground, while farmers and countrymen are driving stock to places of safety.

The steamer Georgia Lee, which has arrived from Cairo, reports the river one vast sea. Refugees can be seen everywhere.

In Arkansas and Mississippi the situation is regarded as serious. Many points armed guards are patrolling the levees to prevent any one cutting them.

All streams and rivers in Arkansas are on a boom, and at some places a back water of the Mississippi is causing damage.

The river at Memphis continues to attract the attention of thousands of people, who line the bluffs, gazing at the vast expanse of water. The force of the flood is being realized by the present additional rise. Logs in great quantities are whirling by with the speed of an ocean steamer.

Government engineers are very active. They have steamers patrolling the levee system. "We are prepared for any emergency," said Captain Lucas of the government staff.

SACKS OF SAND.

These Are Being Distributed Along the Levees by the Thousands.

New Orleans, March 11.—The continuance of rainy weather here is the most unfortunate condition at present, this having the effect of softening the levees, and all Louisiana is praying for the return of sunshine.

Six hundred men are working at various points along the river frost sacking weak points and raising the line of embankments. Thousands of sacks of sand are being distributed along the river.

Engineers report the levees between Southport and Carrollton in excellent condition and able to stand a much greater strain than they have thus far been subjected to. United States engineer officials have promised their co-operation with the authorities of this city and state in carrying on the fight against the flood. All levee boards of the state may be said to be in continuous session and every foot of levee on the river and its tributaries is under surveillance.

FIELDS COVERED.

As Far as the Eye Can See Thousands of Acres Are Inundated.

Evansville, Ind., March 11.—Several shanty boats on the Wabash and Green rivers have been crushed in the flood and loss of life is feared. Farmers about Mount Vernon have fled from high water, taking their household goods and livestock. Stock was taken from Diamond Island, the largest in the river below Cincinnati. In the White river bottoms, as far as the eye can see, fields are covered with water and thousands of acres are inundated. Houses are vacant, the occupants being forced out by the water.

Are Prepared.

Vicksburg, Miss., March 11.—The river here has risen four-tenths of a foot in twenty-four hours, gauges registering 47.5 feet. Precipitation of rain for twenty-four hours was .89. There have been no reports of breaks in the levee, but inhabitants of lowlands along the river are prepared for emergencies.

May Reach Highest Mark.

Evansville, Ind., March 11.—With rain threatening and high water above to come and high water below to hold the general flow in check, the prediction is made that the Ohio river at this point will go almost to the mark of 1884, the highest on record.

Officers Chosen.

El Paso, Tex., March 11.—Texas Cattle Raisers' association elected the following officers: President, W. W. Turner, El Paso; first vice president, Ike T. Pryor, St. Louis; second vice president, Richard Walsh, Paducah; secretary, John T. Lytle, San Antonio; treasurer, S. B. Barnett, Fort Worth.

PRECAUTION IS TAKEN

Prevention of Cutting of the Levees Guarded Against.

CONTINUOUS CHAINS.

These Earthworks Are All That Will Save Millions of Dollars' Worth of Property From Being Utterly Ruined.

Natchez, Miss., March 11.—Every conceivable precaution that can be devised is being adopted to prevent any attempt at cutting the levees, as these continuous chains of earthwork on both sides of the river are all that will save millions upon millions of dollars' worth of property, the loss of life and livestock. A constant watch is being maintained with strong and determined men doing patrol duty. The business of these men is no secret. They are there to protect the lives and property behind the levees and they will fire with deadly aim upon any person approaching the levee in a suspicious manner. These guards are also watching to detect any sloughing or sipage in the levees.

Heavy rains Tuesday added to the intensity of the situation. The river rose three tenths and is 2.5 above the danger line, which facts have intensified the feeling of apprehension.

The steamer Betsy Ann brought 250 people from the flooded district between here and Bayou Sara. A number of them were taken from the water and are destitute. They will be cared for here. There is a big demand for skiffs and batteaus. The St. Joseph and Senator Cordill are also doing considerable relief work between Natchez and Vicksburg.

RISES SLOWLY.

Thousands of Acres of Fine Farming Lands Have Been Flooded.

Vicksburg, Miss., March 11.—There is little change in the flood situation here except that the river continues to slowly rise, the gauge Tuesday night registering 47.3, a two-tenths rise since 8 a. m. There was a steady fall of rain here all day Tuesday.

Thousands of acres of fine farming lands along Steele's bayou are inundated and the backwater is rapidly spreading. In that section of country there will doubtless be heavy loss of farm animals, as the facilities for removing them are practically nil.

Locally the water is rapidly encroaching upon the wholesale district, and the compresses are already, and the lower floors of several warehouses are flooded.

Another foot rise will probably force Yazoo and Mississippi Valley railroad shops to suspend operations, throwing several hundred men out of work. Reports from up river points state that the levees are all holding well and are being carefully guarded. Seven hundred state convicts have been placed at the disposal of the Yazoo, Miss., levee board and will be utilized for strengthening weak places along the line.

MUCH ALARM.

Situation at New Orleans Is a Very Serious One.

New Orleans, La., March 11.—The Mississippi river has risen steadily in front of the city until Tuesday night it was flush with the levees and is seeping through the crowds in spots. The situation is very grave. Sandbags are being piled on the levee at Customhouse and Common streets, where low places exist.

The New Orleans levee board Tuesday night had an army of negroes on the river front watching every move and fighting back the flood. They do not apprehend any serious break, the water must be stayed.

Vice President L. S. Thorne and Chief Engineer B. S. Wathen of the Texas and Pacific Railroad company came in from Dallas in a private car, to hurry their high water force to scenes of trouble. They have ninety men at Bogere swamp fighting back the water from the Texas and Pacific tracks. Their lines are in trouble along Red river both below and above Shreveport.

High Water Predicted.

Little Rock, Ark., March 11.—The White, Black and Current rivers are bank full and rising with a great volume of water yet in sight. It is expected that the Newport, Ark., gauge will show a stage of thirty-two feet, which will put the White river into the Iron Mountain yards and over a great portion of track. The Arkansas river here is stationary but is rising rapidly above, and the weather bureau predicts a rise here within the next forty-eight hours, which will send the water above the danger line.

Rapid Rise.

Memphis, Tenn., March 11.—The river Tuesday night was above thirty-five feet on the gauge and rising. The current is swifter and more driftwood is running than at any previous time during the present rise. These signs are taken as indicating that there will be a rapid increase in the speed of the rise.

MEN'S FURNISHERS.

BRYAN LIGHT GUARDS.

Meeting Held at Armory Last Night—Will Reorganize.

The Bayan Light Guards met last night and took preliminary steps towards reorganization under the direction of Capt. Geo. W. Winter. The men were lined up and uniforms issued to them and lockers assigned. The following were present: Geo. W. Winter, captain; Howard Cavitt, first lieutenant; Trent Newton, first sergeant; C. A. Belmont, Wade Cox, Tom Adams, Rob Roberts, Milton Dum, Clarence Moore, Frank Webb, Robt. Hearne, Richard Davis, Chancey Kernole, Marshall Spell, Larry Stevens, Hal Saunders, Howard Eaves, Ernest Ettle, Nim Johnson, Charlie Hobgood, Henry Hollman.

The election of officers will be held later and there will be some vacancies to fill and promotions. The number of men in the company will also be increased to about forty, making a full company.

Another meeting will be held next Wednesday night and drilling will be commenced at that time. New guns will be issued to the company in May and they will attend the state encampment in June.

The new armory, which has been fitted up by the company and the young men of the town to be used also for dancing and other social affairs, is in Mike's hall, and is worthy of special mention. New steps lead up from the outside, a new floor has been put in, and the room enlarged by taking out partitions, two dressing rooms are provided, the walls and ceiling have been nicely papered, lockers are placed along the wall and will be upholstered to serve for seats, and other improvements and decorative work is to be done. The hall is well lighted and the ventilation is perfect.

The boys are going to have a splendid company and the Eagle predicts that they will win great honors this year.

For Sale.

Six room house, three lots of ground, outhouses, underground cistern, and all in first-class condition. Price, \$1,500. A. W. Hollman. 68 lm.

For Sale or Rent.

For sale now, or for rent after Apr. 1st, our home place. Apply to W.H. Lawrence. 84

DEATH FROM APPOPLEXY.

Mrs. Jeff Kilgore Died Suddenly at the Home of Mrs. Rawls.

Mrs. Jeff Kilgore died suddenly late Tuesday night at her rooms at the residence of Mrs. Rawls of some brain trouble that was evidently apoplexy. She was well and hearty and ate supper with the family on Tuesday night. Later on she was found in an unconscious condition and medical attention was summoned. She rallied for a time, but death came in a short time.

She was a middle-aged lady and very stout. Her husband was a railroad conductor, and had been on the I. & G. N. extra list. He was away seeking regular employment when her death occurred, and could not be located yesterday although the wires were feely used and messages sent to the afternoon papers. Mrs. Kilgore also leaves two children, both grown, and a sister who is said to reside in Dallas, but whose address could not be learned yesterday.

Mr. and Mrs. Kilgore came here from Yoakum several months ago and were much esteemed by those who knew them.

The body was embalmed yesterday by James & Castles with the view of delaying the interment until the arrival of Mr. Kilgore and other relatives who may come.

ROCK ISLAND MERGER.

The Same Is Being Vigorously Fought at the Texas Capital.

Austin, March 11.—In the house senate bill providing for Rock Island railroad merger came up Tuesday with pending amendment by Messrs. Shannon and Pierson of Hunt, requiring that road, in consideration of the rights and authority granted it under the act, to build within two years from taking effect of the act a line of railway extending from Fort Worth to Galveston.

After much discussion the bill went over.

Mr. Green and others introduced a resolution tendering congratulation to Representative J. C. Roberts upon the birth of his twenty-first child, and asking that the child be named Sam Lanham.

Mr. Middlebrook offered an amendment to call the child Pat Neff. The speaker thought the amendment out of order, but put it to the house and it was adopted.

Mr. Green said the amendment was satisfactory to the authors of the bill. The speaker replied that the mother had not been heard from and she could veto the whole bill.

The resolution, as amended, was adopted unanimously.

In the senate Senator Sebastian called up and had finally passed, under a suspension of the rules, committee substitute for his bill providing severe punishment for persons desecrating graves.

Senator Davidson of DeWitt secured final passage of his joint resolution submitting the proposition to hold a constitutional convention.

Senator Harbison secured suspension of the rules and final passage of his bill creating a more efficient road system for Grayson county.

Bill to defer, prohibit and declare illegal trusts passed to third reading in the house.

Fourteen bodies, burned in the oil fire near Olean, N. Y., have been found. Several others were totally consumed.

Colored Galen Crow, an aged citizen of Austin, is dead.

In a quarrel between Tom Ballew and Fred McCracken in the Osage nation near Pawhuska the latter was killed.

Retail merchants of Vinita, I. T., have formed a protective association.

In Dewey county, Oklahoma, Timothy St. John, a farmer, has sued a neighbor for \$20,000 for alleged alienation of the affections of the wife of the former.

The Celine (Tex.) Mill and Elevator company, capital stock \$30,000, has been organized.

Lanham's Views.

Austin, Tex., March 11.—In speaking of the many propositions pending in the legislature which carry appropriations, Governor Lanham said:

"The idea of establishing state depositories for the distribution of the surplus funds of the state is being advocated by a great many people. If the proposed appropriations shall go through, no one need worry about the surplus, for there will not be two 25-cent pieces left to rub against each other."

Governor Lanham believes that the legislature should complete the business before it in the regular session and that a special session ought not to be called, unless some emergency now in sight should arise.

Killed by Live Wire.

Waco, Tex., March 11.—Dr. Louis Weisburg was killed almost instantly by coming in contact with a live wire, just one groan escaping his lips as he sunk to the sidewalk, the victim of the entire voltage of a light circuit. Dr. Weisburg was formerly a rabbi.

Ice Manufacturers.

Dallas, March 11.—The convention of the Southwestern Ice Manufacturers' association, with representatives from practically every large concern of the kind in the state of Louisiana, Arkansas and Texas and Oklahoma and Indian Territory met here Tuesday. Much business was transacted.

CONCESSION OBTAINED.

Senator Morgan Succeeds in Scoring on One Point.

Washington, March 11.—Senator Morgan secured the first material concession that has been made to him by the senate in connection with the Panama canal treaty with Colombia. This consisted of an agreement to attach the Spencer canal act bodily to the treaty. This change was made in compliance with a request presented by Senator Lodge during the day's executive session of the senate Tuesday for the necessity for it had been discussed by Mr. Morgan and other members of the senate committee. Mr. Daniel expressed the opinion that as the preamble to the treaty calls for the attachment of a copy of the act that attachment was necessary to preserve the terms of the document intact. Senator Morgan contended that without this attachment the treaty was absolutely invalid. Senators Teller and Hoar took the opposite view, urging that as the act was in existence and of record in the statutes of the United States, the physical annexation was of no consequence whatever. Senator Lodge, however, suggested that no injury could result from the attachment of the act and unanimous consent was given. It was specifically stipulated, however, that this concession did not amount to an amendment of the treaty.

Senator Morgan consumed the entire time of the remainder of the closed session, discussing the canal question from various points of view and going over much ground he already had covered. Most of his speech was written, and when Senator Cullom asked him if the speech he was reading was a new one or an old one, he replied with some manifestation of vexation that it was new, adding that he did not have to repeat his addresses.

CLAY NOT MUCH WET.

Surprising Result of Experiment at College—Valuable Lesson Deduced.

To The Bryan Eagle.

College Station, Tex., March 10.—Supposing that the following observation may be of interest to the farmers of this immediate vicinity, I submit its publication for their information. While digging an excavation recently on a level piece of college ground, I was impressed with the comparatively dry condition of the clay only 3½ feet below the surface. I took a sample of this clay to the laboratory and on my suggestion Dr. Frank ael determined the amount of moisture, which was found to be 10½ per cent. The clay was then permitted to absorb water until it would take no more; that is, until it was saturated. The moisture was then determined in a sample of this and the amount was found to be 33 per cent. The amount of moisture in the clay as taken from the ground at this depth is only about double that which the air dry clay would hold, and a little less than ¼ of the amount of water it is capable of retaining. Could anything illustrate more forcibly the necessity for heavy winter rains on this up-land soil with its refractory and pernicious clay sub-soil, or show more plainly the necessity of deep plowing in the fall, and if possible sub-soil plowing, in order to reach this clay and create within it an opening for the winter rains in order that moisture may be stored up for the next year's crop? If lime, barnyard manure, or decayed vegetable matter, could be buried beneath the top soil in contact with the clay below, it would not only add to the fertility of the soil but make the soil more friable and increase the percolation of the water through its pores; but if the clay has been so resistant to water, it will be equally tenacious of what it holds when the summer drouth comes on.

Respectfully,

H. H. Harrington,
State Chemist.

Election Ordinance.

Be it ordained by the City Council of the city of Bryan:

That an election for city offices, to-wit: Marshal, Secretary, and three members of the City Council, shall be held by the qualified voters of said city, at the city hall in Bryan, on the first Tuesday in April next, it being the 7th of said month, and the presiding officer, together with such others as he may appoint, shall hold said election in accordance with the city charter and ordinances and the state law governing elections.

Adopted by the City Council and approved by the Mayor, this the 28th day of February, 1903.

d73 R. H. Harrison,
C. M. Spell, S. B. C. Mayor.

29	30	31				

John H. Kirby has announced that within a year he will have several of the largest paper mills in the world in operation in Texas.

Remember the Central Texas fair will be held in August this year—much earlier than heretofore—and it is time for our people to begin talking it up and enlisting the interest of Brazos and surrounding counties.

Sheriff Henry Watts, while in Brazos county, was entertained by Col. John D. Rogers, on his plantation. He reports a marvelous crop of alfalfa. He says Col. Rogers has sixty acres in alfalfa, and that off the crop he has fattened five hundred hogs for market, and has fed his 120 mules that work on the plantation. A failure was made in the corn crop, and the alfalfa took its place.—Palestine Herald.

The anti-pool room bill which has been passed to engrossment by the house, prohibits betting on races either at race tracks or in pool rooms.

Major William Kirlicks, who has for the past several weeks spent his time in Sedalia, Mo., and points thereabout, looking after corn shipments for the International and Great Northern railroad has been advised that fifty cars belonging to the company will be at his disposal within a few days for loading corn and all of them will be consigned to points along the International and Great Northern. Mr. Kirlicks intends to remain in Missouri for probably ninety days longer and the total number of cars shipped by him to Texas will, no doubt, reach the 200 mark.

Not An Abbess.

Bryan, Texas, March 11. Ed. Eagle.—In your Vol. 8, No. 79, of the column "News in Brief," I have noted the following erroneous statement: "The lady abbess of an asylum at Munich charged with attempting to poison a girl was given six years imprisonment."

I wish to state that the lady charged with the above mentioned crime is no abbess at all. The superioresses of certain religious orders are called "abbesses," but the asylum alluded to is not conducted by religious, but by a society of secular ladies.

Father Fr. Machan,
Rector of St. Joseph's Church.

Gray FOX!

will make the season at J. B. Dunn's stock farm 10 miles north of Bryan. Season opens March 15th and closes July 1, 1903. For prices and terms call on or address T. A. Simas, Franklin, Texas. You all know "Gray Fox."

W. O. Freeman of Cross and S. A. Davis of Iola, were here yesterday.

A new line of madras at Norwood's for waists and shirts. 83

Roadmaster Wm. Fitzgerald of the I. & G. N., was in the city yesterday.

500 pieces colored dimities and lawns just received at Norwood's. 83

Joe Randolph and Will Swinner of Madisonville were in town yesterday.

A full line of ladies' waist bags at 50c, 75c and \$1 each at Norwood's. 83

Dr. D. H. Clark left yesterday morning on a business trip to Houston.

Mrs. W. C. Newman of Hearne is the guest of Mr. and Mrs. W. A. Reed.

Mrs. George Merchant of Dallas is the guest of Mrs. J. G. Harrison at College.

George Donaho, who is merchandizing at Searcy, was in the city yesterday.

The criminal docket will be called in the district court Monday, the third week.

Mr. and Mrs. J. H. Herron of Marlin have been here visiting relatives the past two days.

O. P. Buchanan returned to Beaumont yesterday after spending several days in the city.

Hon. C. A. Adams returned last night from an official visit to Huntsville, Houston and Austin.

W. J. Christian is building a blacksmith shop near the plant of the Water, Light & Power Co.

For Sale.—House furnishings, including furniture, floor coverings, etc. Apply to Will H. Harman. 82

Rev. B. B. Sanders, formerly of this city but now of Austin, preached an excellent sermon on the christian graces at the Christian church last night.

R. L. Redding of Prairie Plains, Grimes county, was in the city last night and left on the 12:50 train this morning for Lone Oak, Hunt county, where he will soon move his family.

"Hello Central! Give me McDougald's drugstore. I want Dr. Harrison to send me a case of that Mineral Wells Star water. It's the best that ever came out of the ground." 80

Fruit jars are being received by the carload these days, indicating that a large amount of fruit is expected. Fruit growing has attained much more importance in this county than is generally supposed by those who are not interested or posted.

Dr. and Mrs. W. C. Friley and daughter, little Miss Ruth, are visiting Mr. and Mrs. J. W. Ray in Rockdale. The Eagle learns with pleasure that Mr. Ray and family will probably move back to Bryan next fall.

Just received one entire car of Mason's machine-made porcelain-lined top fruit jars, rubbers, extra tops and jelly glasses. Get my prices. I will not be undersold. J. A. Myers, the Hot Kutter. 86

N. M. Begelow, who is drilling for oil for the Douglas oil company, in north Grimes, was in town yesterday and says the work has been greatly delayed by the bad weather.

Sun baths were very popular yesterday afternoon among those who have leisure to take life easy. The sun came out bright and warm and even the inanimate things appeared to be glad.

Messrs. A. P. Terrell, B. F. Salyer and City Attorney H. L. Lewis of Navasota were visitors to Bryan yesterday in attendance upon district court.

Report from the public school for month of January shows: Total enrollment for the year, 479 pupils; total attendance for January, 429; cases of tardiness, 278, or 3 per cent; number cases corporal punishment, 23; cases of truancy, 9; suspension, none. Enrollment for last year was 458, which gives an increase of 21 to date this year. The per cent of attendance by grades for January ran from 92½ to 100. Much of the tardiness was due to bad weather. The school is doing good work and good discipline is maintained.

Said a leading business man yesterday: "The people of Bryan should keep their chickens up a week and put out poison to kill the sparrows. They are becoming so numerous that they are an unbearable nuisance. At home they eat up all my strawberries as soon as they appear on the vines. They infest the eaves and gutters and every crack and corner of the houses. We could soon kill them out in the manner suggested, and it should be done."

The suit of Samuel Levy et al vs. Mrs. Hattie Harbers et al for foreclosure of vendor's lien notes, went to trial in the district court yesterday.

Will Lane, lodged in jail Tuesday night on a charge of receiving stolen property, was released yesterday on a \$500 bond until Monday. Bond was supplied by parties from Navasota.

Seed corn was moving out at a lively rate by wagons yesterday. The farmers are going to put it in the ground at the earliest possible moment.

In the suit of Ed Pochilla vs. the C. W. & B. V. railroad company, judgment for plaintiff was agreed to in the sum of \$800 and costs.

The Lenten tea for the week will be with Mrs. Doremus, assisted by Mesdames Anderson, Law and Castles, Thursday at 4 to 6 p. m., benefit St. Andrew's guild. 81

B. F. Payne of Hollis, formerly a student of Allen academy, was here yesterday en route to Hill's business college at Waco.

Eugene C. Blake, the well-known traveling man, was shaking hands with Bryan friends yesterday.

Douglas Friley was at his post at Hall's drug store yesterday after two days' illness.

Mrs. F. F. Hooper of Calvert is the guest of her sister, Mrs. Waldrop.

Mrs. J. T. Hines returned from Purcell, I. T., yesterday.

Fancy neck ribbons, the latest styles, at Norwood's. 83

Mrs. M. B. Geary returned from Benchley yesterday.

Mrs. Spaw and son arrived from Marlin yesterday.

'Split zephyr, all colors, at Norwood's. 83

Shetland floss, all colors, at Norwood's. 83

Attend the good roads meeting of the Business League at the opera house next Friday afternoon at 3 o'clock. Every man in Bryan and Brazos county ought to be there.

Mr. and Mrs. J. R. Collier and Mrs. Porter of Mumford were visitors to Bryan yesterday afternoon. Mr. Collier told the reporter he and others in the Mumford neighborhood began planting corn yesterday morning. He says he has eighteen acres of corn, planted three weeks ago, which is now up and doing well.

The suit of Samuel Levy et al vs. Mrs. Hattie Harbers et al for foreclosure of vendor's lien notes, went to trial in the district court yesterday.

Will Lane, lodged in jail Tuesday night on a charge of receiving stolen property, was released yesterday on a \$500 bond until Monday. Bond was supplied by parties from Navasota.

Seed corn was moving out at a lively rate by wagons yesterday. The farmers are going to put it in the ground at the earliest possible moment.

In the suit of Ed Pochilla vs. the C. W. & B. V. railroad company, judgment for plaintiff was agreed to in the sum of \$800 and costs.

The Lenten tea for the week will be with Mrs. Doremus, assisted by Mesdames Anderson, Law and Castles, Thursday at 4 to 6 p. m., benefit St. Andrew's guild. 81

THE CATTLE RAISERS'

Twenty-Seventh Annual Convention
Begins Its Labors.

EL PASO THROGGED.

Hundreds of Persons Interested in
the Industry Assemble in the
West Texas City and Com-
mence Business.

El Paso, Tex., March 11.—The twenty-
seventh annual convention of the
Texas Cattle Raisers' association came
together Tuesday morning. The ses-
sion was called to order in the Myar
operahouse, and when the gavel of the
president fell every seat in the house
was occupied.

The decorations in the operahouse
are very effective. The national col-
ors and those of Mexico were draped
across the stage, while in the center,
above the curtain, the Lone Star,
formed of sixty-three electric bulbs,
sparkled and shone upon the head of
a wild-eyed Texas steer. Back of the
speaker's station there was another
wheat white star. There are 624 dele-
gates and over 5000 visitors.

Tuesday's session was occupied with
reports from officers and committees,
speeches of welcome and responses.
Mayor Hammett delivered the address
of welcome and delivered the keys of
the city to President MacKenzie. Vice
President Turney followed him with a
welcoming speech.

Executive committee report was of
much interest and adopted.

MURDER MYSTERY.

Body of a Young White Woman Found
in the City of New York.

New York, March 11.—Detectives of
the West Thirtieth street station are
much mystified over the finding of the
body of a young white woman lying at
the foot of the stairs leading to a bil-
liard room owned and patronized by
negroes on the second floor at 104
Thirtieth street. The woman was of
good appearance and well dressed. The
surgeon who examined her body said
death was due to a fracture at the base
of the skull. There was blood upon
the stairs leading to the clubroom, as
though the woman had either been
thrown down or had tried to drag her-
self up after she was hurt. Thirteen
colored men who were in the clubroom
were taken to the station house, four
of them being locked up on suspicion
of knowing something of the manner
in which the woman came to her death.

HER GREATEST FRIEND.

A Cuban Senator So Regards the United
States of America.

Havana, March 11.—Senator Busta-
mente, chairman of the senate foreign
relations committee, replying in the
senate to arguments of opponents to
the reciprocity treaty, quoted an array
of statistics and estimates from the
treasury department showing the ad-
vantage and necessity of close com-
munity relations with the United
States. "But beyond all questions of
money," continued the senator, "was
the gratitude that Cubans feel to their
greatest friend and their deliverer,
which made Cubans not only disposed
to give the United States naval sta-
tions, but whatever reasonable advan-
tages Cuba could conveniently tender
her."

All Again Chosen.

Kansas City, Mo., March 11.—At the
annual meeting of the board of direc-
tors of the Kansas City Southern rail-
road in this city all of the directors
were re-elected as follows: Edwin
Gould, George J. Gould, Lawrence
Greer, E. H. Harriman, Otto H. Kahn,
John W. Gates, John Lambert, John
J. Mitchell, H. J. Pierce, Hermann
Sieleken, J. S. Walsh and Henry Wert-
heim.

Missouri Pacific Directors.

St. Louis, March 11.—At the annual
meeting of the stockholders of the
Missouri Pacific Railroad company the
following directors were elected: Ed-
win Gould, Russell Sage, Edwin
Gould, James H. Hyde, John D. Rocke-
feller, Jr., Frank J. Gould, Howard
Gould, Samuel Sloane, Parmelee Pre-
ntice, Fred T. Gates, C. G. Warner, Rus-
sell Harding and W. Bixby.

Thirty Per Cent Increase.

Washington, March 11.—Formal no-
tice of the extraordinary war tax
which President Castro created upon
the lifting of the blockade has been
reported to the state department from
United States charge d'affaires Rus-
sell at Caracas. There is thirty per
cent increase in the duties on imports.

Hagan's Will Filed.

Guthrie, Okla., March 11.—The will
of H. H. Hagan, recently deceased was
filed here for probate, naming his
nephew, Gore Hagan, as executor.
There are life insurance policies in the
sum of \$108,000.

Two Deaths Tuesday.

Mazatlan, Mex., March 11.—There
were two deaths from the plague
Tuesday, one at the observation sta-
tion and the other at the lazareto.
These are two grave cases at the la-
zareto.

Great Livestock Losses.

Ardmore, I. T., March 11.—Reports
from the ranches indicate that cattle
losses to stockmen as the result of the
recent blizzard have been heavier than
was expected. At least 40,000 cattle
perished in the Territory.

Grand jury of Fisher county, Texas,
found forty-seven true bills.
Captain R. P. Hobson addressed the
Oklahoma legislature Tuesday and re-
lated the Merrimac incident.

FOUR ATTACKS.

Striking Union Men Create a Lively Time
at Toledo.

Toledo, O., March 11.—After four
successive attacks had been made on
non-union teamsters by striking union
men a member of the Toledo Cartage
association declared that he would
make application to Governor Nash
to call out the state militia to protect
the association's men and interests.
Tuesday has been one of the most ex-
citing in the city's history, nor is the
excitement abated by the strikers' de-
claration that a general strike will
be called and that no Toledo freight
will be handled by teamsters in any
part of the country. The trouble be-
gan at noon when an enraged mob of
400 strikers and sympathizers fol-
lowed a truck through the principal
streets endeavoring to knock and pull
from his place a non-union driver. The
mob also attempted to do violence to
Manager Turner, of the Moreton truck
company. In whirling around a cor-
ner the truck was overturned and the
next instant the non-union driver and
manager were on the pavement with
the mob on top of them. In the melee
the two objects of the attack escaped
into a restaurant where waitresses
screened them and defied the howling
mob that was at their heels, until the
police interfered.

HURLED TO ETERNITY.

Automobile Leaped Over a Curb and At-
torney Pennell Killed.

Buffalo, N. Y., March 11.—More ter-
rible almost than the death of E. L.
Burdick was the tragedy that occurred
late Tuesday afternoon when Arthur
P. Pennell, one of the chief figures in
the investigation of the Burdick mur-
der, was hurled headlong into eternity.
Mr. Pennell was riding in his electric
automobile with Mrs. Pennell. They
were on Kensington avenue near Fill-
more avenue, skimming along the edge
of the Gehres stone quarry, a huge
rock ribbed hole in the ground. Mr.
Pennell's hat blew off. The automo-
bile swerved, and in some inexplicable
manner it leaped over the curb into
the abyss below. Pennell was killed
instantly, his head being crushed to
an unrecognizable mass. Mrs. Pennell
was injured so severely that the sur-
geons at the Sisters' hospital, to which
she was taken, say her chances of re-
covery are very slight.

HELD AT ST. LOUIS.

Directors of Frisco and St. Louis, Mem-
phis and Southwestern Meet.

St. Louis, March 11.—The annual
meeting of the directors of the St.
Louis and San Francisco and St. Louis,
Memphis and Southwestern railroads
was held here Tuesday. It was directed
that the annual reports be forwarded
to the railroad commission as re-
quired by law and the meeting then ad-
journing to convene in New York.
President Yoakum is at present in
New York, but expects to be in St.
Louis within a few days. It is re-
ported that the Rock Island directors
will meet in New York soon and ef-
fect a reorganization among the of-
ficers, placing Mr. Yoakum at the
head of both the Rock Island and Fris-
co systems.

DOCK DESTROYED.

Loss Is About Four Hundred Thousand
Dollars.

Portland, Ore., March 11.—Victoria
dock, situated on the east bank of the
Willamette river, north of the railroad
bridge was destroyed by fire about
noon Tuesday, together with 10,000
tons of wheat and 2000 tons of salt
stored on the dock.

The total loss is estimated at \$400,-
000; insurance about \$40,000. It is
certain that the fire was started by
an incendiary as a man was seen leav-
ing the dock after the fire had gained
some headway.

Husband's Good Deed Rewarded.

Charleston, S. C., March 11.—Mrs.
John Hopkins, who lives in reduced
circumstances at Opau gold mines,
Union county, this state, will receive
\$148,000 of the fortune of the Charles
Hill, alias "Salesman Charley" of Los
Angeles, Cal. It appears that Mrs.
Hopkins' first husband, Alexander,
while in Texas twenty years ago, saved
the life of Charles Hill, and Hill had
made a will of all his property to his
preserver. Mrs. Hopkins' lawyer left
for Los Angeles.

Territory Charter.

Guthrie, Okla., March 11.—A terri-
torial charter was granted to the Col-
orado, Oklahoma and Texas Railway
company, with \$2,500,000 capital stock,
for the purpose of constructing a line
from Goodwin, Day county, Oklahoma,
to Denison, Tex., a distance of 275
miles, and passing through the coun-
ties of Day, Roger Mills, Washita, Ki-
owa, Caddo and Comanche in Okla-
homa.

Territory Tragedy.

Chacotah, I. T., March 1.—A posse
of men came into Chacotah with a ne-
gro named Frank Dawn, charged with
killing Charlie Scott, the seventeen-
year-old son of J. D. Scott, twelve
miles west of here. The trouble is
said to have arisen over \$1.05, which
the negro claimed Scott owed him for
picking cotton. Dawn is from Dallas,
Texas.

Last Opportunity.

Muskogee, I. T., March 11.—Revenue
Collector Cobb announced that the last
opportunity had been offered cattle-
men who are grazing in the Choctaw
and Chickasaw nations to pay the
grazing tax on their cattle. Eleven
hundred notices were sent by regis-
tered mail to as many cattlemen last
week, giving a final ten days' notice
before removal.

To Be Investigated.

Topeka, Kan., March 11.—The state
senate decided to make an investiga-
tion of the supposed merger of the
Frisco railroad lines.

Do You Enjoy What You Eat?

You can eat whatever and whenever you
like if you take Kodol. By the use of this
remedy disordered digestion and diseased
stomachs are so completely restored to
health, and the full performance of their
functions naturally, that such foods as would
be one into a double-bow-knot are eaten
without even a "rumbling" and with a pos-
itive pleasure and enjoyment. And what is
more—these foods are assimilated and
transformed into the kind of nutriment that
is appropriated by the blood and tissues.
Kodol is the only digestant or combination
of digestants that will digest all classes of
1. In addition to this fact, it contains in
2. imitative form, the greatest known toni-
3. reconstructive properties.
Kodol cures indigestion, dyspepsia and al
disorders arising therefrom.

Kodol Digests What You Eat Makes the Stomach Sweet.

Bottles only. Regular size, \$1.00. Selling 2 1/2 times
the trial size, which sells for 50 cents.
